

ABOUT ALAMON

If you're in search of an experienced, reliable company for all your Structured Cabling needs, look no further than Alamon.

Since its founding in 1975, Alamon has developed long-term relationships with many of the country's most recognizable corporations. Our 12 regional offices found throughout the United States enable us to work with high-profile and small companies alike, in any location.

Alamon offers a broad range of Structured Cabling services including, Voice, Data and Fiber Optic Cabling, and Wireless LAN.

Our reputation for quality workmanship and on-time delivery is documented by our customer ratings, as we consistently earn top scores in all areas of service. We are known for keeping defects to a minimum and pride ourselves on doing things right the first time. Our quality offers the best value for your money.

Ongoing investment in the latest equipment is one way Alamon keeps pace with constantly changing technology. If there is enough customer demand for a specific service, we're willing to invest in next-generation tools and the training our technicians need to use them.

As an employee-owned company, Alamon has developed a dedicated and well-trained staff of career-minded professionals. Because turnover is low, our customers know they're going to receive consistent service from one job to the next.

Alamon covers almost every segment of the communications industry. If you have a need, we can fill it.

Data, voice and video networks are the lifeblood of any organization. At Alamon, we believe a network is only as good as the infrastructure it's built on. Whether you are building, relocating or upgrading, structured cabling is the foundation for the growth of your company. We can provide the latest technologies to address the changing needs of your network.

WHY CHOOSE ALAMON?

QUALITY & ON-TIME DELIVERY

For over 40 years, Alamon has consistently provided the highest levels of quality, service and workmanship. By delivering our customers' projects on time and on budget, Alamon takes pride in building long-term business relationships that span decades.

VALUE FOR THE COST

Alamon gets it right the first time, at a fair price. Our vast industry knowledge allows us to bid jobs accurately — we know what it takes to get your work done. Our customers don't have to deal with change orders for inaccurately bid jobs.

SERVICE PROTECTION

The biggest names in communications and data services regularly entrust Alamon with their networks. We have the technicians, equipment and expertise to seamlessly integrate the latest technology into existing infrastructure.
