

ABOUT ALAMON

If you're in search of an experienced, reliable company for all your Outside Plant needs, look no further than Alamon.

Since its founding in 1975, Alamon has developed long-term relationships with many of the country's most recognizable corporations. Our 12 regional offices located throughout the United States enable us to work with high-profile and small companies alike, in any location.

Our Outside Plant department specializes in Fiber and Copper Splicing, and Fiber Characterization testing, and we offer extensive Fiber To The Home capabilities.

Our reputation for quality workmanship and on-time delivery is documented by our customer ratings, as we consistently earn top scores in all areas of service. We are known for keeping defects to a minimum and pride ourselves on doing things right the first time. Our quality offers the best value for your money.

Alamon keeps up with constantly changing technology through our ongoing investment in the latest equipment. If there is enough customer demand for a specific service, we're willing to invest in next-generation tools and the training our technicians need to use them.

As an employee-owned company, Alamon has developed a dedicated and well-trained staff of career-minded professionals.

Because turnover is low, our customers know they're going to receive consistent service from one job to the next.

Alamon covers almost every segment of the telecom market. If you have a need, we can fill it.

WHY CHOOSE ALAMON?

QUALITY & ON-TIME DELIVERY

For over 40 years, Alamon has consistently provided the highest levels of quality, service and workmanship. By delivering our customers' projects on time and on budget, Alamon takes pride in building long-term relationships that span decades.

VALUE FOR THE COST

Alamon gets it right the first time, at a fair price. Our vast industry knowledge allows us to bid jobs accurately — we know what it takes to get your work done. Our customers don't have to deal with change orders for inaccurately bid jobs.

SERVICE PROTECTION

The biggest names in telecommunications regularly entrust Alamon with their networks. We have the technicians, equipment and expertise to seamlessly integrate the latest technology into existing infrastructure.
